Summer Undergraduate Research Fellowships in Oceanography

10 weeks: June 4 to August 10, 2018
Stipend: $5,500 (with allowances for housing and travel)

Offering a variety of hands-on cutting-edge research topics with teams of scientists:
- Ocean circulation
- Hurricane modeling
- Food web dynamics
- Pollutant distribution
- Instrument development
- Plankton dispersal
- Sea-floor mapping
- Nutrient transport
and more

Supplemented by workshops, seminars (Laboratory Safety, Careers in Oceanography, Ethics in Science, Scientific Writing, Graduate School Decisions), social events (sports, kayak outings), and more.

Deadline: February 21, 2018

Eligibility: U.S. Citizens, U.S. Nationals, or permanent U.S. residents
